PROFILE

A motivated and adaptable web developer with a solid foundation in front-end and back-end technologies. Skilled in creating user-centric web solutions and staying current with industry trends. Ready to contribute expertise to a dynamic team or organization and make a positive impact in web development.

PROJECTS

SOCIALINK

SociaLink is a cutting-edge social media platform that seamlessly integrates React, Tailwind CSS, and Material UI for an engaging user experience. The robust back end, powered by Node.js, Express.js, and MongoDB, ensures efficient data management. Socket.IO is utilized for real-time notifications, enhancing user interaction and engagement. This project exemplifies expertise in full-stack web development, combining elegant design with real-time functionality.

ELITECART

EliteCart is a feature-rich ecommerce platform meticulously crafted using MERN technologies. The front end combines the power of React, Redux, Tailwind CSS to provide an elegant and user-centric shopping experience. JavaScript, Node.js, and MongoDB on the backend ensure seamless data handling.

MERCHVANTAGE

MerchVantage is a comprehensive and intuitive Admin-Dashboard designed for seamless management of ecommerce website. It empowers administrators to efficiently oversee products, categories, subcategories, users, and orders. It enhances decision-making, ensures secure and efficient data management, enabling you to maintain the highest level of control.

TEQSTA LABS

Contributed to the development of Teqsta Lab's website creating an interactive user interface to showcase the client's services and solutions, demonstrating proficiency in web development technologies using Bootstrap, React.js, HTML, CSS for the frontend, and JavaScript with MongoDB Atlas for the backend.
